TABLE OF CONTENTS

		PAGE
Immunological relationship of wheats resistant and susceptible to *Puccinia rubigo-vera triticum*. Contributions from the Hull Botanical Laboratory **409**	*Albert E. Edgecombe*	1
Ecological studies of the vegetation of the Great Smoky Mountains of North Carolina and Tennessee. I. Soil reaction and plant distribution. Contributions from the Hull Botanical Laboratory **410** (with six figures) - - - - - -	*Stanley A. Cain*	22
Floral morphology of *Arceuthobium americanum* (with eleven figures) - - - - - - -	*E. Silver Dowding*	42
A group of tetraploid roses in central Oregon (with three figures) - - - - - - - - - -	*Eileen Whitehead Erlanson*	55
Meristem in *Osmunda cinnamomea*. Contributions from the Hull Botanical Laboratory **411** (with fifteen figures) - - - - - - - - -	*George L. Cross*	65
Cordaitean wood from the Pennsylvanian of Michigan and Ohio (with ten figures) - - - - -	*Chester A. Arnold*	77
Specialization in secondary xylem of dicotyledons. III. Specialization of lateral wall of vessel segment (with eight figures) - - - - - - -	*Frederick H. Frost*	88
Development of floral organs of the soy bean (with sixteen figures) - - - - - - - - - -	*Arthur T. Guard*	97
Effects of variation in day-length and clipping of plants on nodule development and growth of soy bean. Contributions from the Hull Botanical Laboratory **412** (with five figures) - - -	*Scott V. Eaton*	113
Factors influencing fruit setting in the pecan (with six figures) - - - - - - - - - -	*Guy W. Adriance*	144
Respiration of the shoot as affected by temperature changes of the root (with five figures) - - -	*W. H. Michaels*	167
Effect of manganese, copper, and zinc on growth and metabolism of *Aspergillus flavus* and *Rhizopus nigricans* (with seven figures) - - - - -	*J. S. McHargue and R. K. Calfee*	183

PAGE

Nuclear division and development of sterigmata in *Coprinus atramentarius*. Contributions from the Hull Botanical Laboratory **413** (with forty-eight figures) - - - - - - - - - - - *Margaret Martin Vokes* 194

Phototropic "indifference" and the light-sensitive system of Phycomyces (with two figures) - - *E. S. Castle* 206

Solubility changes of inorganic constituents in citrus cuttings (with two figures) - - - - - - *F. F. Halma and A. R. C. Haas* 213

Ecology of the mosses of Grand de Tour region of Illinois, with special reference to pH relations. Contributions from the Hull Botanical Laboratory **414** - - - - - - - - - - - *Charles E. Montgomery* 225

Antheridial dehiscence in the Polypodiaceae (with twenty-seven figures) - - - - - - - *M. Elizabeth Hartman* 252

Development and vascular organization of the foliar organs of *Carya cordiformis* (with plates I, II and four figures) - - - - - - - - - - *LaDema M. Langdon* 277

Comparative study of river bluff succession on the Iowa and Nebraska sides of the Missouri River. Contributions from the Hull Botanical Laboratory **415** (with seven figures) - - - - - *David F. Costello* 295

New or otherwise noteworthy Compositae. VI. Contributions from the Hull Botanical Laboratory **416** - - - - - - - - - - - *Earl Edward Sherff* 308

Distribution of total nitrogen in regeneration of the willow (with five figures) - - - - - - *P. A. Davies* 320

A microchemical and morphological study of the developing endosperm of maize (with plate III and seven figures) - - - - - - - - *Lois Lampe* 337

Development of *Dionaea muscipula*. II. Germination of seed and development of seedling to maturity (with thirty-six figures) - - - - - *Cornelia Marschall Smith* 377

		PAGE
Ascent of sap in plants. Contributions from the Hull Botanical Laboratory **417** (with one figure)	*Fanny Smith, R. B. Dustman, and C. A. Shull*	395
Regeneration in leaf cuttings of *Ipomoea batatas* (with nineteen figures) - - - - - - -	*C. L. Isbell*	411
Floral morphology of *Lyonothamnus floribundus* (with twenty-nine figures) - - - - - -	*José B. Juliano*	426
The layering habit in Sitka spruce and the two western hemlocks (with four figures) - - -	*Wm. S. Cooper*	441
Origin and development of tissues in stem of *Selaginella wildenovii*. Contributions from the Hull Botanical Laboratory **418** (with nineteen figures)	*Bertram D. Barclay*	452
BRIEFER ARTICLES—		
A new species of grama grass (with four figures)	*H. I. Featherly*	103
Nativity of the cucurbits (with three figures) -	*A. T. Erwin*	105
Cell wall of *Vaucheria geminata* - - - - -	*Ladley Husted*	219
Preparation of copy - - - - - - -	*The Editors*	327
A hybrid lobelia - - - - - - - -	*E. Lucy Braun*	462
CURRENT LITERATURE - - - - - - - -		109, 220, 332, 464
